WORK EXPERIENCE

Web Developer & E-commerce Manager

Promed Onsite

02/2020 - 07/2022

Promed Onsite specializes in on-location surgical equipment repair for a variety of clients.

Achievements/Tasks

- Delivered new frontend content and components for existing company site.
- Integrated eBay plugin to generate e-commerce sales of surgical equipment.
- Catalogued information of 100+ pieces of surgical equipment such as weight, length, etc.
- Managed inventory and sales of surgical equipment via website.
- Administered changes to existing content according to client's specifications.

PROJECTS

Matapals [Senior Capstone Project] (08/2021 - 05/2022)

- Organized and held biweekly team meetings with group of six students to design senior project in degree program.
- Drafted and built frontend components according to given specifications.
- Implemented live counter and typing feature for existing live chat.
- Established backend functionality and database utilization.
- Introduced likes feature for events and groups posts.
- Applied Google Maps and Google Geolocation API to generate campus map.

Movie Mania (02/2022 - 05/2022)

- Developed online movie forum using MERN stack.
- Launched user registration/login system using BCrypt and JSON Web Token.
- Formalized CRUD content management system for users.
- Created functional backend and middleware to connect to frontend and store user and post data in MongoDB database.
- Utilized movie/show API with ability for users to search with.
- Instituted like/dislikes, editing, and deletion for posts.

TransferMarket (09/2021 - 11/2021)

- Built web scraper collecting data from HTML elements on transfermarkt.com.
- Integrated search component for users to scrape player links.
- Stored scraped information in MySQL database.
- Displayed scraped information into player cards.
